

## Camping pendant luminaire PLI-09-1500-15W-AC24V-M for camping, tents and mobile modules.

Led lamp intended for General lighting indoor and mobile objects with the alternating current power supply with a rated voltage of **AC24V**, for example, petrol or diesel power plants. Allowed powered by DC (solar or batteries with a voltage of 20 to 40V). Most frequent use: lighting tents, mobile hospitals, trailers, automotive shelters and mobile housing units. Lamp mounting is performed by the suspension method using carabiner; or ceiling with screws. Electrical connection is via a convenient self-locking pads. The lamp consists of an aluminum radiator – housing, impact-resistant lens and a current driver (converter AC voltage to current). The main advantage of this lamp is: wide supply voltage range, high reliability and mechanical strength, wide

temperature range, high efficiency, no pulsation and flicker, easy installation and operation. Huge lifetime — more than 15 years. A high degree of fire safety. Made in the Russian Federation. Guarantee – 5 years!

### Technical parameters.

The valid range of supply voltages – AC	<b>20 - 40 V</b>
Consumed active power	<b>15W</b>
Class of protection against electric shock	<b>III</b>
Luminous flux	<b>1500 lm</b>
Correlated color temperature	<b>4000-5700 K</b>
Pulsations of the light flux, not more than	<b>1%</b>
The width of the radiation angle FWHM (at the level of 0,5 from max.)	<b>120°</b>
The enclosure protection	<b>IP54</b>
Range of environment temperature	<b>- 40 ... +50°C</b>
Outer dimensions	<b>Ø 155*75 mm</b>
Equivalent light incandescent lamps and halogen lamps	<b>150-200 W</b>
Energy class	<b>A++</b>
Average life time (using the 8 hour. per day)	<b>15-20 years</b>
