AYERS ground washer luminaires provide the users a low glare multi direction light distribution. The luminaire is able to withstand drive over applications at low speeds due to its robust high strength aluminium cover and GFR polymer recessed housing. The high quality optical mirrored reflector produces a high lumen output in a low silhouette fixture. Reflector designed and optimized by Photopia engineering software plus a COB LED from renowned manufacturers allow AYERS a high intensity sharp light output. The family is available in 2 sizes in one– opening, 2–opening and 4–opening. It is a perfect choice to illuminate ground surfaces. AYERS is supplied with a post–cured durable silicone gasket and pre–wired cable for outdoor application.
